*Carmignac Gestion*

Founded in 1989 by Edouard Carmignac, Carmignac Gestion is one of Europe's leading players in its business: the management of financial assets. Its capital is held entirely by its managers and staff. In this way, the company's long-term viability is ensured by a stable shareholding structure, reflecting its spirit of independence. This fundamental value ensures the freedom required for its successful and renowned portfolio management.

Managing more than 22 billion euros of assets, Carmignac Gestion has developed a comprehensive range of 19 UCITS across all asset classes – equities, bonds and diversified – as well as a mandate management offering delivering a relevant response to investor expectations.

Our funds are actively marketed in eight European countries: France, Luxembourg, Switzerland, Belgium, Italy, Germany, Spain and the Netherlands. In line with its international development, the company has had a subsidiary in Luxembourg since 1999, and opened two representative offices in Madrid and Milan in 2008.
