About Carmignac Gestion

Founded in 1989 by Edouard Carmignac, Carmignac Gestion is one of the leading independent management companies in Europe today. Its capital is held entirely by its managers and staff. In this way, the company's long-term viability is ensured by a stable shareholding structure, reflecting its spirit of independence. This fundamental value ensures the freedom required for a successful and reknown portfolio management.

With close to 30 billion euros of assets under management, Carmignac Gestion offers 19 funds in all asset classes – equity bond and balanced, as well as a mandate offering.

Our funds are actively distributed in 8 European countries: France, Luxembourg, Switzerland, Belgium, Italy, Germany, Spain and the Netherlands. Within the context of its international development, the company also has, since 1999, a Luxembourg subsidiary, and in 2008, two representative offices in Madrid and Milan.
