### Net assets at 30/06/10

Carmignac Innovation  
Net Assets: **61 M€**

### A wide and diversified universe

Carmignac Innovation covers a wide-ranging and diverse universe of stocks from the Technology, Healthcare and Alternative energy sectors. This global universe covers developing and emerging worlds and includes all sizes of capitalizations: large, mid and small.

### Identify tomorrow's trends

Carmignac Innovation benefits from a strategic aiming to identify and to understand structural trends of today in order to anticipate future needs. In order to do so, the fund manager implements a rigorous investment process which privileges the analysis of major trends in our consumer patterns, our relationship with technology, the daily use of multimedia, and the increasing demand for cleaner energy and more personalised medical treatment. It is through this indepth analysis, reinforced by regular company visits, that the fund manager forges and confirms his investment convictions. He is then able to construct the portfolio with innovative companies, selected for the quality of their management, their growth potential, the soundness of their business model and also for their market valuation.

### The experience of the entire investment team

Tim Jakslund draws on his experience of the environment and healthcare sector. He also benefits from Carmignac Gestion's 20 year experience on the international markets. Comprising 18 fund managers and analysts, the investment team contributes its knowledge of the European, emerging and international equity markets.
