Manufacturer's website : www.carmignac.com

Date of production of the KID : 16/02/2024

WHAT IS THIS PRODUCT?

TYPE

Carmignac Portfolio Emerging Patrimoine is a segregated sub-fund of Carmignac Portfolio SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

TERM

The SICAV was launched on 30/06/1999 for unlimited period. The sub-fund was launched on 15/11/2013.

OBJECTIVE

The sub-fund aims to outperform its reference indicator over a period exceeding five years. The reference indicator comprises 40% MSCI Emerging Market NR USD index, 40% JP Morgan GBI-EM Global Diversified Composite Unhedged EUR index calculated with coupons reinvested and 20% ESTER capitalised. It is rebalanced each quarter.

The sub-fund is invested mainly in international equities and bonds of emerging countries. It offers active management on the international equity, fixed income, credit and currency markets. No more than 50% of the portfolio's net assets will be exposed to equities. Between 40% and 100% of the assets of the sub-fund shall be invested in fixed or variable rate bonds, transferable debt securities or treasury bills. The average rating of the bonds held by the sub-fund either directly or indirectly via UCITS shall be at least investment grade (as rated by at least one of the leading rating agencies). The sub-fund may invest in inflationlinked bonds. The manager may use Relative Value strategies as performance drivers, looking to take advantage of the relative value.

The sub-fund uses derivatives for hedging or arbitrage purposes, or to expose the portfolio to the following risks (directly or via indices): currencies, bonds, credit (up to 30% of net assets), equities (all categories of capitalisation), ETFs, dividends, volatility, variance (the latter two categories for up to 10% of net assets) and commodities (up to 10% of assets). The derivatives available are options (vanilla, barrier, binary), futures and forwards, swaps (including performance) and CFDs (contracts for difference) on one or more underlyings. Overall exposure to derivatives is controlled by the expected leverage, calculated as the sum of nominal amounts without netting or hedging, of 500%; this may be higher under certain conditions. The maximum Relative VaR is limited to 2. The overall modified duration of the fixed income portfolio is between -4 and +10. Modified duration is defined as the change in portfolio capital (as %) for a change in interest rates of 100 basis points. Up to 10 % of the net assets may be invested in contingent convertible bonds ("CoCos"). CoCos are regulated subordinated debt instruments that are complex, but consistent in nature. Please refer to the prospectus for more information. The sub-fund may invest up to 10% of its net assets in units or shares of investment funds.

This sub-fund is an actively managed UCITS. The investment manager has discretion over the composition of its portfolio, subject to the stated investment objectives and policy. The sub-fund's investment universe is totally independent from the indicator. The sub-fund's investment strategy is not dependent on the indicator; therefore, the sub-fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation.

The sub-fund promotes environmental/social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR") through best-in-universe and best-effort approaches, and an active engagement policy. Extra-financial analysis leads to a reduction of at least 20% of the sub-fund's investment universe via a negative filter excluding companies whose extra financial ratings reflect high risks. In addition, the sub-fund invests at least 10% of its net assets in sustainable investments within the meaning of SFDR. The sustainable investment definition used by the sub-fund uses the United Nations Sustainable Development Goals ("SDGs") framework. This framework is one of several that can be used to illustrate positive results; others may yield different results. The sustainability risk of the sub-fund may differ from that of its reference indicator.

INTENDED RETAIL INVESTOR

This sub-fund is intended for private and institutional investors wishing to diversify their investments while benefiting from market opportunities through reactive asset management over a recommended minimum investment period of 5 and planning to retain their investment for the recommended minimum investment period.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

OTHER INFORMATION

Investments may be redeemed each business day on request. Subscription, redemption or conversion requests are centralised on each NAV calculation and publication day before 18:00 CET/ CEST and are executed on the next business day using the previous day's NAV

The Depositary of the sub-fund is BNP Paribas, Luxembourg branch.

This is an accumulation share.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com, directly from the manufacturer or on the website www.fundinfo.com. Information on past performance for the last 10 years, where this data is available, and calculations of monthly past performance scenarios are available on the website www.carmignac.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Risks to which the sub-fund may be exposed and which could lead to a fall in the net asset value to which the indicator gives too little consideration:

- Credit risk: the sub-fund is invested in securities whose credit rating may decline, meaning there is a risk that the issuer may not be able to meet its commitments. Should an issuer's creditworthiness decline, the value of the bonds or derivatives linked to this issuer may fall.
- Counterparty risk: the sub-fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations, especially in the case of derivatives traded OTC
- Risks associated with China: investing in this sub-fund entails risks associated with China, especially risks associated the use of Stock Connect (a system facilitating equity investment in the A shares market via a Hong Kong-based entity acting as the sub-fund's nominee). Investors are advised to familiarise themselves with the specific risks of this system, as well as with other risks linked to investments in China (CIBM, RQFII status...) as outlined in the prospectus
- Liquidity risk: the markets in which the sub-fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the sub-fund may have to liquidate, initiate or modify its positions.

Lower risk

Higher risk

The length of the recommended holding period is 5 years.

If the sub-fund is denominated in a currency other than the applicable currency of the legal tender of the Member State where the PRIIP is being marketed, the return the retail investor gets, when expressed in the currency of the Member State where the PRIIP is being marketed, may change depending on currency fluctuations.

This product does not include any protection from future market performance so you could lose some or all of your investment.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

PERFORMANCE SCENARIOS

The unfavourable, moderate and favourable scenarios shown represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended holding period:		5 years	
Example Investment:		10 000 GBP	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	5 590 GBP	5 060 GBP
	Average return each year	-44.10%	-12.74%
Unfavourable	What you might get back after costs	7 880 GBP	9 040 GBP
	Average return each year	-21.20%	-2.00%
Moderate	What you might get back after costs	10 730 GBP	12 600 GBP
	Average return each year	7.30%	4.73%
Favourable	What you might get back after costs	14 220 GBP	18 030 GBP
	Average return each year	42.20%	12.51%

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- The unfavourable scenario occurred for an investment between June 2021 and December 2023.
- The moderate scenario occurred for an investment between December 2016 and December 2021.
- The favourable scenario occurred for an investment between December 2015 and December 2020.

WHAT HAPPENS IF CARMIGNAC GESTION LUXEMBOURG IS UNABLE TO PAY OUT?

For your protection, the assets of the fund are held with a separate entity, the custodian, so that the fund's ability to pay would not be affected by the insolvency of the management company. In the event of failure of the latter, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the product.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment.

Cost over time

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 GBP. The figures are estimates and may change in the future.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

	If you exit after 1 year	If you exit after 5 years
Total costs	237 GBP	1 562 GBP
Annual cost impact (*)	2.4%	2.5% each year

*This table illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4,7% before costs and 2,3% after costs."

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 GBP
Exit costs	We do not charge an exit fee for this product.	0 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,16% of the value of your investment per year. This estimate is based on actual costs over the past year.	116 GBP
Transaction costs	0,71% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell.	71 GBP
Incidental costs taken under specific conditions		
Performance fees	20,00% when the share class overperforms the Reference indicator during the performance period. It will be payable also in case the share class has overperformed the reference indicator but had a negative performance. Underperformance is clawed back for 5 years. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years, or since the product creation if it is less than 5 years.	50 GBP

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Due to the sub-fund's exposure to the emerging bond and equity markets, the recommended investment period is over 5 years.

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible each business day. In exceptional circumstances, your right to request the redemption of your investment may be suspended.

HOW CAN I COMPLAIN?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can contact the initiator by e-mail to complaints@carmignac.com, by letter to 7 Rue de la Chapelle, 1325 Luxembourg, Luxembourg or by phone calling the number (+352) 46 70 60 1.

In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

OTHER RELEVANT INFORMATION

The sub-fund may comprise other types of unit. You can find more information on these units in the prospectus or on the website: www.carmignac.com.

This sub-fund's units have not been registered under the US Securities Act of 1933. They may not be offered or sold, directly or indirectly, to or on behalf of a US person as defined in US Regulation S. Depending on your tax status, any capital gains and income resulting from the ownership of units of the fund may be subject to tax. We advise you to obtain further information in this regard from the promoter of the fund or from your tax advisor.

The manufacturer may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.
