5 - Swing pricing

In relation to the Sub-Funds "CARMIGNAC PORTFOLIO – CREDIT" and "CARMIGNAC PORTFOLIO – EM DEBT", in order to protect the interests of the Shareholders, the Net Asset Value per Share can be adjusted in certain circumstances to prevent or reduce dilution ("swing pricing"). A Sub-Fund may suffer a dilution of Net Asset Value per Share in case that subscriptions, conversions or redemptions are effected at the price that does not reflect the actual cost of selling or purchasing the underlying assets of the Sub-Fund. The price difference may be due to trading charges, taxes and other costs as well as the spread between buying and selling prices of the underlying assets.

The Net Asset Value will be adjusted upward when there is net inflows into the above mentioned sub-funds and downward when there is net outflow into these sub-fund in excess of a predetermined threshold. This mechanism is applied at the sub-fund level to all the share classes and is not meant to address specific circumstances of each individual investor. These adjustments will seek to reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs, and other market and trading considerations, in accordance with the internal process in place in the management company and will not, in normal circumstances, exceed 2% of the Net Asset Value per Share. In extraordinary circumstances, the Board of Directors may raise this limit to protect the Shareholders. Extraordinary circumstances are presented, among others, by (i) an increase of the equity markets volatility beyond usual levels, (ii) a widening of bid/ask spreads in bonds or securitizations markets from usual levels and (iii) a strong reduction of broker quotes on both buy and sell sides. Swing factor does not impact any performance fee calculation as any performance fee will be charged on the basis of the unswung Net Asset Value. Information on the application of swing pricing will be made available to Shareholders on the following website <https://www.carmignac.lu/en/regulatory-information> and upon request."

The NAV and the NAV per Share disclosed in the financial statements and in the "Statistics" do not include Swing Pricing adjustment.

For the NAV dated 30 June 2024, there were no swing adjustments.
