

A PROMISING START FOR CARMIGNAC PORTFOLIO PATRIMOINE EUROPE

13.02.2020

Carmignac Portfolio Patrimoine Europe, the multi-asset fund led by the European duo Mark Denham and Keith Ney, was created with the firm intention of unveiling Europe's underestimated potential, for the benefit of its clients. Two years after its launch, it is off to a promising start.

31 December 2019 marked Carmignac Portfolio Patrimoine Europe's second anniversary. The Fund was designed to offer **a more "flexible" alternative to investors, in the face of a constantly mutating European environment.** We had therefore opted for a "Patrimoine" investment philosophy, characterised by a flexible, multi-asset and long-term approach.

Mark Denham and Keith Ney, respectively Fund Managers of the Carmignac Portfolio Grande Europe and Carmignac Sécurité funds, had naturally been chosen to oversee this new strategy, with the following ambition: **unearth promising pockets of value** across European equity and fixed income markets, **while adapting to changing market conditions.**

Two years later, after going through a bearish and a bullish market often fraught with pitfalls, the Fund's ambition remains unchanged, and the results speak for themselves ¹: **Carmignac Portfolio Patrimoine Europe beats 97% of its peers for its performance of 13.01%, and 95% of its peers for its Sharpe ratio of 1.64 ².**

Next review in January 2021, for **Carmignac Portfolio Patrimoine Europe**'s third anniversary. In the meantime, for more information on the Fund, we invite you to:

*For the A EUR Acc share class. Risk Scale from the KIID (Key Investor Information Document). Risk 1 does not mean a risk-free investment. This indicator may change over time. ¹ The Fund aims to outperform its reference indicator over 3 years minimum. ² The Sharpe ratio measures a portfolio's return versus a risk-free investment. When superior to 1, it indicates that the portfolio outperforms a risk-free rate and that the performance is not achieved at too high risk.
